# THE ELIZABETH NURSERY CO.

**ELIZABETH, N. J.**

**Office: WILDER STREET. Telephone: ELIZABETH 1742.**

We have removed our office to our new property on Wilder Street, half a block from North Broad Street. Take Lyons Farms cars, which pass Wilder Street.

Customers are requested to state mode of shipment, express or freight, and by what route. When none is given, will forward to the best of our judgment. In no case do we assume responsibility after goods are shipped, unless for our own mistakes.

## **GUARANTEE.**

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

All claims for errors or deductions must be made immediately upon receipt of goods.

We cannot fill long lists for one or two of a kind at hundred rates; will charge at single rates; 50 of a kind at rate of 100, and 500 of a kind at rate of 1000.

Samples will be charged at hundred rates.

## DECIDUOUS TREES.

The lease on our old grounds expires December 1st. We have moved everything off excepting Silver Maples and other large trees. We will give some great bargains to anyone desirous of transplanting some trees rather than transplant them ourselves. Come and see us.

# ROSES.

## Important.

Those desirous of making contracts for young Roses out of 2½-inch pots, for lining out next Spring (1903), will do well to write us for particulars. We will make contracts now for next Spring delivery for much lower prices than we will sell the same stock next Spring. You will do much better by giving your orders now, as you will then get just the varieties you desire. State quantities and varieties desired. We will have upwards of 500,000 Roses, of all the leading varieties of H. T., H. P., Mosses, Climbers and Creepers.
